

## Kerabit Aluminium Tape

Päivitetty 25.6.2015 Tulostettu 12.12.2019

Kerabit Aluminium Tape is a heat-and moisture-resistant tape. This product is used for sealing vapour barriers and repairing any tears, as well as for sealing aluminium-coated air-conditioning ducts. Kerabit Aluminium Tape reflects light and heat.

This tape is made of aluminium, with the glue being polyacrylate. The lowest operating temperature is +5°C and the temperature tolerance is -40°C - +140°C.

### Technical data

<b>Manufacturer / Manufactured for</b>	Nordic Waterproofing Oy/Lohja Plant
<b>Country of origin</b>	Estonia
<b>Application temperature</b>	The lowest operating temperature is +5°C
<b>Rolls size</b>	50 mm x 50 m
